1 As of Q1/06 478k Machine-to-Machine SIM cards (m2m) were included in the number of prepaid customers to align T-Mobile Germany's reporting with the other T-Mobile subsidiaries.

2 As a result of court proceedings against competitors, T-Mobile Deutschland changed its deactivation policy at the beginning of 2007 in favor of its prepaid customers. These customers can now use their prepaid credit longer than before. Accordingly, in the first halfyear of 2007 far fewer customers were deactivated. Most of the reported first-quarter increase in customers is due to this change. Approximately 400,000 prepaid customers resulted from the use of pre-activated prepaid cards in the context of special customer acquisition measures. Historical figures were not adjusted.
