## **Dividend announcement**

On 4 June 1998 the Shareholders' Meeting of our company approved the payment of a dividend of DM 1.20 per share of a par value of DM 5.00 on the dividend-bearing capital stock of DM 13,716,200,500 as at 31 December 1997, payable as of 5 June 1998.

The dividends will be paid by Deutsche Börse Clearing AG, Frankfurt on Main, via the depository banks, less 25% capital gains tax and a 5.5% solidarity surcharge on the capital gains tax (a total of 26.375%).

Combined with the dividend is a tax credit of DM 1.1028 of the payment per share amounting to 3/7 of the dividend; this amounts to DM 0.4726. This credit, like the capital gains tax and the solidarity surcharge, is set off against the income tax or corporate income tax paid by domestic shareholders who are not exempt from these taxes. The remaining DM 0.0972 of the dividend is subject to tax under EK 01 (foreign earnings under § 30 section 2 No. 1 KStG (Corporate Income Tax Law)) and thus does not qualify for a tax credit.

The deduction of capital gains tax and the solidarity surcharge on the capital gains tax does not apply to shareholders who have submitted to their depository banks a non-assessment note from the tax authorities. In such cases the tax credit will also be granted by the bank making the payment. The same applies in toto or in part to shareholders who have submitted to their depository bank an exemption order as long as the amount of the exemption specified in the order has not been used up by other capital gains.
