

How to use LiveStream Perform on mobile devices (shown on Android, IOS analog)

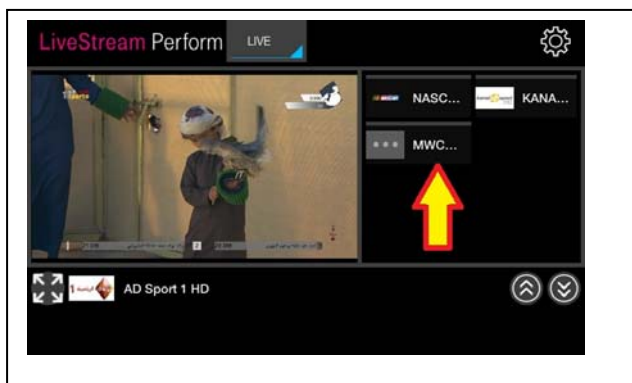

First of all you need to have the app downloaded and installed.
Current version for **Android** is **1.6**, for **IOS** **1.4**

When starting the first time you should see this:

Scroll down (see Arrow!)

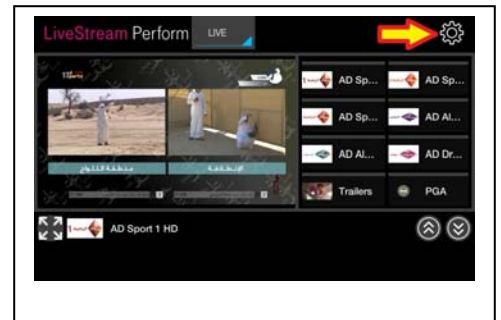

Choose MWC...

Success!

How to setup LiveStream Perform app manually:

Click on Settings:

Choose the Homescreen

dt-default

(there may be some other entries from previous programs)

If **dt-default** is not found, please enter here

Tap twice on return.

Select right channel as described above.
