Social Performance Report

Our yearly social performance report is an essential instrument to exam the possible consequence for human rights. Like every year, Deutsche Telekom conducted in 2016 a survey in order to ensure compliance of its consolidated group companies with the principles of the social charter of the DT group. All consolidated companies of Deutsche Telekom declared their observance with the basic principles of the Social Charter for the period between January and December 2016. 103 group companies participated in the social performance report.
