This presentation contains forward-looking statements that reflect the current views of Deutsche Telekom management with respect to future events. These forward-looking statements include statements with regard to the expected development of revenue, earnings, profits from operations, depreciation and amortization, cash flows and personnel-related measures. You should consider them with caution. Such statements are subject to risks and uncertainties, most of which are difficult to predict and are generally beyond Deutsche Telekom’s control. Among the factors that might influence our ability to achieve our objectives are the progress of our workforce reduction initiative and other cost-saving measures, and the impact of other significant strategic, labor or business initiatives, including acquisitions, dispositions and business combinations, and our network upgrade and expansion initiatives. In addition, stronger than expected competition, technological change, legal proceedings and regulatory developments, among other factors, may have a material adverse effect on our costs and revenue development. Further, the economic downturn in our markets, and changes in interest and currency exchange rates, may also have an impact on our business development and the availability of financing on favorable conditions. Changes to our expectations concerning future cash flows may lead to impairment write downs of assets carried at historical cost, which may materially affect our results at the group and operating segment levels. If these or other risks and uncertainties materialize, or if the assumptions underlying any of these statements prove incorrect, our actual performance may materially differ from the performance expressed or implied by forward-looking statements. We can offer no assurance that our estimates or expectations will be achieved. Without prejudice to existing obligations under capital market law, we do not assume any obligation to update forward-looking statements to take new information or future events into account or otherwise.

In addition to figures prepared in accordance with IFRS, Deutsche Telekom also presents alternative performance measures, including, among others, EBITDA, EBITDA margin, adjusted EBITDA, adjusted EBITDA margin, adjusted EBIT, adjusted net income, free cash flow, gross debt and net debt. These alternative performance measures should be considered in addition to, but not as a substitute for, the information prepared in accordance with IFRS. Alternative performance measures are not subject to IFRS or any other generally accepted accounting principles. Other companies may define these terms in different ways.

Creating Robust Competition in the 5G Era

1. Unprecedented Nationwide 5G Network
   - Unprecedented capacity, speed and latency to drive revolutionary consumer experience unlocking significant economic value
   - Accelerate U.S. position in 5G as the only company able to quickly deploy a broad and deep nationwide 5G network
   - Use early leadership in 5G to capture wave of innovation and disruption, benefiting customers and the U.S. economy

2. Supercharge Un-Carrier Strategy at Pivotal Time
   - Network capabilities and capacity will lead to better service and lower prices
   - Continuation of proven pro-consumer strategy that is fundamentally built around more value and higher consumer satisfaction
   - Proactively create new competition and disruption in adjacent markets
   - Bring real mobile broadband competition to rural Americans for the first time and new competition for businesses of all sizes

3. Job Creator from Day One
   - Creating new jobs day one with investment to expand customer service, retail footprint and 5G build-out
   - Driving rapid investment nationwide in 5G, ensuring American leadership in 5G eco-system
   - Forcing converged industry leaders to invest more and faster
   - Accelerating the growth of millions¹ of U.S. jobs and substantial economic value

¹) Based on CTIA estimates from “The Global Race to 5G” April 2018
NEW T-MOBILE US HAS THE BREADTH & DEPTH TO CREATE THE FIRST NATIONWIDE 5G NETWORK

NEW T-MOBILE US IS THE ONLY COMPANY CAPABLE OF DELIVERING NATIONWIDE 5G IN CRITICAL EARLY STAGE OF INNOVATION

✓ Unmatched combination of spectrum assets to create a broad AND deep network

✓ Enhanced financial position above what either company could do alone to invest in the rollout of 5G

✓ Proven leadership and plan to rapidly rollout advancements – T-Mobile US deployed nationwide LTE twice as fast as Verizon and three times as fast as AT&T
