# Disclaimer

This presentation contains forward-looking statements that reflect the current views of Deutsche Telekom management with respect to future events. These forward-looking statements include statements with regard to the expected development of revenue, earnings, profits from operations, depreciation and amortization, cash flows and personnel-related measures. You should consider them with caution. Such statements are subject to risks and uncertainties, most of which are difficult to predict and are generally beyond Deutsche Telekom's control. Among the factors that might influence our ability to achieve our objectives are the progress of our workforce reduction initiative and other cost-saving measures, and the impact of other significant strategic, labor or business initiatives, including acquisitions, dispositions and business combinations, and our network upgrade and expansion initiatives. In addition, stronger than expected competition, technological change, legal proceedings and regulatory developments, among other factors, may have a material adverse effect on our costs and revenue development. Further, the economic downturn in our markets, and changes in interest and currency exchange rates, may also have an impact on our business development and the availability of financing on favorable conditions. Changes to our expectations concerning future cash flows may lead to impairment write downs of assets carried at historical cost, which may materially affect our results at the group and operating segment levels.

If these or other risks and uncertainties materialize, or if the assumptions underlying any of these statements prove incorrect, our actual performance may materially differ from the performance expressed or implied by forward-looking statements. We can offer no assurance that our estimates or expectations will be achieved. Without prejudice to existing obligations under capital market law, we do not assume any obligation to update forward-looking statements to take new information or future events into account or otherwise.

In addition to figures prepared in accordance with IFRS, Deutsche Telekom also presents alternative performance measures, including, among others, EBITDA, EBITDA margin, adjusted EBITDA, adjusted EBITDA after leases, adjusted EBITDA margin, adjusted EBIT, adjusted net income, free cash flow, free cash flow after leases, gross debt, net debt after leases and net debt. These alternative performance measures should be considered in addition to, but not as a substitute for, the information prepared in accordance with IFRS. Alternative performance measures are not subject to IFRS or any other generally accepted accounting principles. Other companies may define these terms in different ways.

# Key messages

01

## T-Systems' transformation is progressing

2018 transformation program has shown progress with EBITDA acceleration in 2019. Clean-up of portfolio resulted in T-Systems as a focused IT services company

02

## Covid-19 with severe impact on business in 2020

Covid-19 crisis impacted T-Systems' core client base, as a result delayed our transformation. Nonetheless, we have managed the crisis above industry average

03

## Strategy: Leading European IT service provider

Going forward we have a clear strategy. We focus on DACH and selected countries, leading with secure cloud and digital solutions and stronger industry orientation

04

## Accelerate profitability and competitiveness

Transformation program re-energized end of 2020, opportunity for value creation is clear going forward

05

## Financial outlook

We are confident growing adj. EBITDA AL by > 5% CAGR 2020–2024e and generate positive Cash contribution in the planning period

# Review 2017–2021

# T-Systems' transformation path

# T-Systems' 2017–2020 transformation recap

## Execution of 4-pillars, addressing fundamental business challenges

- 1**
  - Portfolio-oriented business model (Portfolio P&L steering)
  - Strategic portfolio decisions: Exit of End-User-Services, Malaysia and South Africa. New mainframe structure, transfer of connectivity business to Telekom Deutschland
  - Focused T-Systems' portfolio on cloud and digital services

---

- 2**
  - Integrated go-to-market
  - New positioning in the market launched with strong traction
  - Modernized and digitized sales (Salesforce)

---

- 3**
  - Clear delivery strategy to scale and drive efficiency (with ServiceNow)
  - 4 strategic delivery centers, build-up of > 2,000 FTE in India
  - On-shore to nearshore/off-shore ratio shift from 20% to 30%

---

- 4**
  - Removal of 4 layers of management and 45% executives
  - Overhead (40% finance and 30% HR) reductions
  - ≈1,600 FTE net reduction in Germany (> 10%)
  - Agile organizational structure (1,500 to 500 org units)
  - Overall > €0.3 bn net (10%) indirect cost reductions executed (t/o 60% in Germany)

Employees (FTE)

# T-Systems is at the center of market IT growth opportunities

Market observations 	Geopolitical dynamics 	T-Systems' right to play 
---	---	--

Technology relevance in business is clear and increasing

Flexible, adaptable and scalable technology driving cloud growth

Covid-19 crisis accelerating digitalization

Security, data privacy are critical foundations

European IT services to grow at 4–5%

10% of digitalization potential captured so far in Germany

European, sovereign sentiment is growing as an alternative to hyperscalers

Data protectionism driving new regulations

Economic stimulus packages accelerate Covid-19 recovery

 **#1 German IT player with strong European footprint (#2 in DACH)**

 **Proven market leader in cloud & infrastructure, SAP, digital and security**

 **Industry expertise and leadership, esp. in automotive, public sector and health**

 **Long standing, trusted client relationships – with TRI\*M of 89 in 2020 and brand personality rating of 79**

Sources: BofA February 2021, Global CIO Survey // PAC Mkt Rankings 2020, GBM-MCM – Marketing Communications Strategy & Media | IBT | December 2020: (#1 in DACH for automotive and public sector, become a top-3 player in Europe for public transport – #2 for public transport and #3 in selected German healthcare payors and EU sovereign health cloud)

# Video

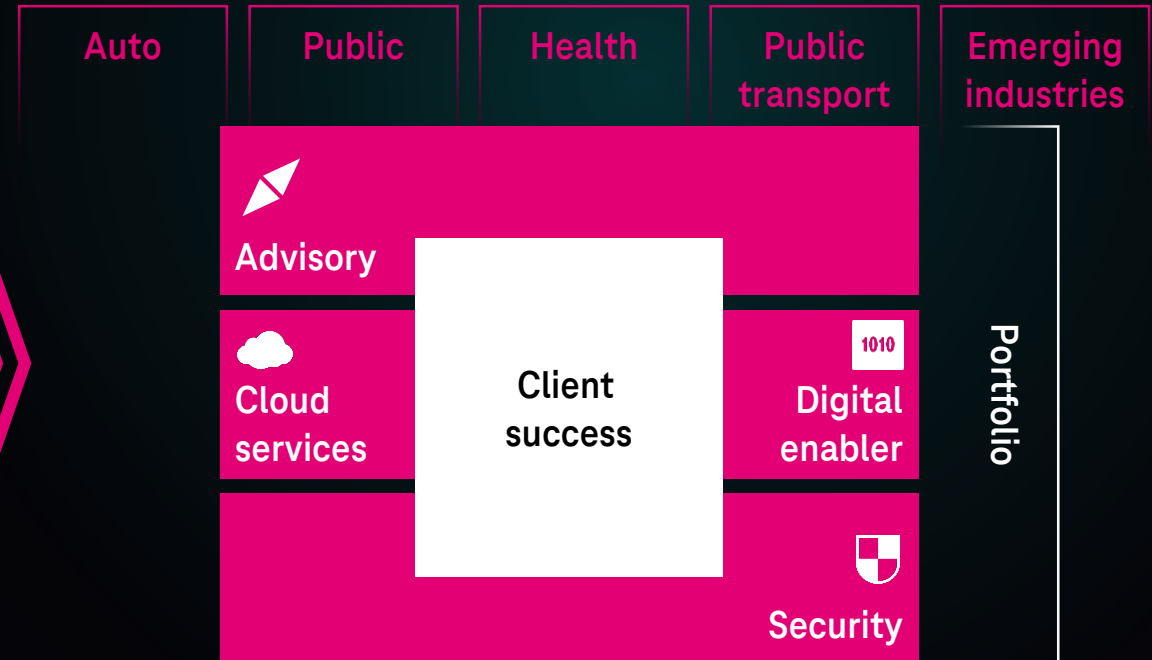

**#peoplemakeithappen**  
Voices of our customers

# Leading European vertical full-service player

We will focus on select industries with vertical solution while providing compelling portfolio relevant to many industries

- #1 IT Service provider in DACH, plus selected countries as core markets with ability to deliver globally
- Lead in 3–5 industries with focused vertical offerings – along with compelling horizontal portfolio for all industries
- Expand into €1 bn–€5 bn revenue customer segment while growing existing client base
- Strong “local” partner on eye-level for our clients on their digital transformation journey
- Sovereignty and security at the core of our proposition

# 1. Integrated cloud services

## Dynamics

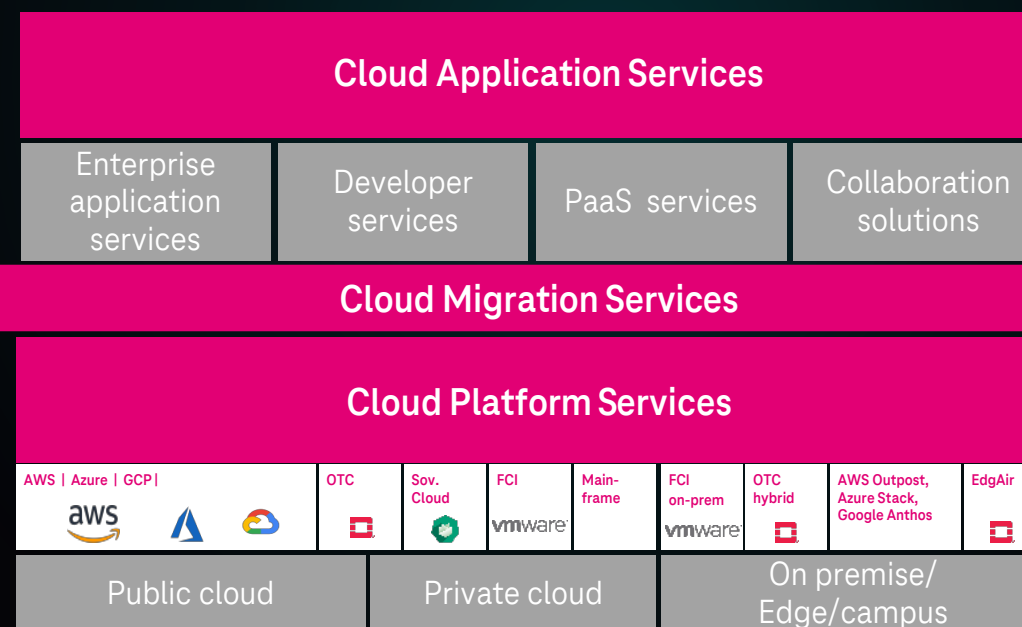

Public cloud is the focus of our clients and a fast-growing market

Hybrid multi-cloud is and will be dominant, with sovereignty being a major trend

TSI leading in industry specific cloud solutions (Automotive-Cloud, Health-Cloud, sovereign cloud)

Proven public cloud transformation with clients like Deutsche Telekom, Heineken, DPDHL, Shell, SBB

## How we execute

**Growth projection public cloud > 10% CAGR until 2024e**  
**Growth projection classic infrastructure services > -5%**

# 2. Digital enabler

## Dynamics How we execute

Digitalization will continue to be a top priority across all industries. Fragmented and attractive market

**T-Systems' 7,000+ experts in key technologies and digitalization skills**

**Proven client digitalization projects:**

- Corona-Warn-App
- Data analytics for European Central Bank
- Vaccination digitalization across EU
- Global Connected-Car-Platform

**Global software factory –**  
Cloud native application development & management

**Core expertise in industry solutions,** processes & services in our verticals

**Global strength in digital innovation** with expertise and assets in AI, Data, IoT, Blockchain, Digital Twin, XR and others

**Standard-driven** digital tech services on leading cloud platforms, e.g., Data Intelligence Hub, sovereign/federated cloud strategy & 5G campus edge

**Growth projection digital 2% CAGR until 2024e**

# 3. Embedded security

## Security remains top CIO investment priority

Security is the backbone for digitalization with unique approach embedding security into offerings

New security solutions for AI-based technologies, machine learning, automation

T-Systems with 8 strategically located Security Operating Centers with over 2000 experts

**Growth projection security > 6% CAGR until 2024e**

# Accelerating our transformation into profitability.

## 5 levers to realize next step in gross savings potentials until 2024e

### 01 Delivery model

- Shoring quota from 30% to 35%
- Automation degree +16pp, operational excellence

### 02 Business process standardization

- Portfolio, delivery & IT standardization
- Rundown of 15/46 tools by end of 2024e

### 03 Lean overhead/sales costs

- Reduce Sellex
- Further reduce G&A costs and executives

### 04 We.work.new

- Leverage new ways of working:  
Reduce real estate in Germany by 50%

### 05 PU-specific topics

- Specific cost measures, e.g., platform & data center consolidation

**€0.2 bn**  
net savings<sup>1</sup>
